Ahlholm U → Silvola J
Allsopp N, Stock WD: Density dependent interactions between VA mycorrhizal fungi and even-aged seedlings of two perennial Fabaceae species 281
Andersen M: Spatial analysis of two-species interactions 134
Arendonk JJCM van → Griffiths BS
Ash JE → Osunkeya OO

Back H → Prosi F
Baker JH → Underwood GJC
Baker RL → Forbes MRL
Balesdent J → Martin A
Baur B → Winter K
Bawa KS → Kang H
Bertness MD, Wikler K, Chatkupt T: Flood tolerance and the distribution of *Iva frutescens* across New England salt marshes 171
Bond WJ → Johnson SD
Bosch F van den → Marinissen JCY
Bowers MD, Collinge SK, Gamble SE, Schmitt J: Effects of genotype, habitat, and seasonal variation on iridoid glycoside content of *Plantago lanceolata* (Plantaginaceae) and the implications for insect herbivores 201
Brederode J van → Pilon-Smits EAH
Brody AK: Oviposition choices by a predispersal seed predator (*Hylemya* sp.). I. Correspondence with hummingbird pollinators, and the role of plant size, density and floral morphology 56
Brody AK: Oviposition choices by a predispersal seed predator (*Hylemya* sp.). II. A positive association between female choice and fruit set 63
Brönmark C: Leech predation on juvenile freshwater snails: effects of size, species and substrate 526
Brown RP, Pérez-Mellado V, Diego-Rasilla J, Garcia JA, Naranjo A, Speakman JR: Individual and population energetics of a lizard on a Mediterranean islet 500
Bullock SH: Effects of sex, size and substrate on growth and mortality of trees in tropical wet forest 52
Byers JN → Köstner BMM

Caldwell MM → Jackson RB
Caldwell MM → Van Auken OW
Carper ER → Dobson AP
Castell C → López-Soria L
Chatkupt T → Bertness MD
Clough BF → Lovelock CE
Collinge SK → Bowers MD
Compton SG, Hawkins BA: Determinants of species richness in southern African fig wasp assemblages 68
Connolly J → Lüscher A
Copp GH: An empirical model for predicting microhabitat of 0+ juvenile fishes in a lowland river catchment 338
Cowling RM → Mustart PJ
Crow TR: Population dynamics and growth patterns for a cohort of northern red oak (*Quercus rubra*) seedlings 192

Dean WRJ → Milton SJ
Dicke M, Dijkman H: Induced defence in detached uninfested plant leaves: effects on behaviour of herbivores and their predators 554
Diego-Rasilla J → Brown RP
Dietz K-J → Winter K
Dijkman H → Dicke M
Díaz M: Spatial and temporal patterns of granivorous ant seed predation in patchy cereal crop areas of central Spain 561
Dobson AP, Pacala SW: The parasites of *Anolis* lizards the northern Lesser Antilles. II. The structure of the parasite community 118
Dobson AP, Pacala SV, Roughgarden JD, Carper ER, Harris EA: The parasites of *Anolis* lizards in the northern Lesser Antilles. I. Patterns of distribution and abundance 110
Duarte Rocha CF, Godoy Bergallo H: Bigger ant colonies reduce herbivory and herbivore residence time on leaves of an ant-plant: *Azteca muelleri* vs. *Coelomera ruficornis* on *Cecropia pachystachya* 249

Edwards PJ, Wratten SD, Parker EA: The ecological significance of rapid wound-induced changes in plants: insect grazing and plant competition 266
Ehleringer JR → Schuster WSF
Ehrlén J → Erikson O
Elmgren R → Hill C
Erikson O, Ehrlén J: Seed and microsite limitation of recruitment in plant populations 360

Fernández RJ, Nuñez AH, Soriano A: Contrasting demography of two Patagonian shrubs under different conditions of sheep grazing and resource supply 39
Fiedler K, Hölldobler B: Ants and *Polyommatus icarus* immatures (Lycaenidae) – sex-related developmental benefits and costs of ant attendance 468
Finckh MR, Mundt CC: Plant competition and disease in genetically diverse wheat populations 82
Forbes MRL, Pagola H, Baker RL: Causes of a non-random pairing by size in the brine shrimp, *Artemia salina:* (Crustacea: Anostraca) 214
French K, Westoby M: Removal of vertebrate-dispersed fruits in vegetation on fertile and infertile soils 447
Frost-Christensen H, Sand-Jensen K: The quantum efficiency of photosynthesis in macroalgae and submerged angiosperms 377

Gamble SE → Bowers MD
Ganzhorn JU: Leaf chemistry and the biomass of folivorous primates in tropical forests. Test of a hypothesis 540
Garcia JA → Brown RP
Geffen E, Hefner R, Macdonald DW, Ucko M: Habitat selection and home range in the Blanford's fox, *Vulpes cana:* compatibility with the resource dispersion hypothesis 75
Gliwicz ZM, Guisande C: Family planning in *Daphnia*: resistance to starvation in offspring born to mothers grown at different food levels 463
Godoy Bergallo H → Duarte Rocha CF
Goldstein G → Meinzer FC
Gómez JM, Zamora R: Pollination by ants: consequences of the quantitative effects on a mutualistic system 410
Gotelli NJ, Spivey HR: Male parasitism and intrasexual competition in a burrowing barnacle 474
Graham AW → Osunkeya OO
Greenway KJ, Macdonald SE, Lieffers VJ: Is long-lived foliage in *Picea mariana* an adaptation to nutrient-poor conditions? 184
Griffiths BS, Welschen R, Arendonk JJCM van, Lambers H: The effect of nitrate-nitrogen supply on bacteria and bacterial-feeding fauna in the rhizosphere of different grass species 253
Guisande C → Gliwicz ZM

Haeger JF → Jordano D
Hanhimäki S, Senn J: Sources of variation in rapidly inducible responses to leaf damage in the mountain birch-insect herbivore system 318
Harris EA → Dobson AP
Hart DD: Community organization in streams: the importance of species interactions, physical factors, and chance 220
Hawkins BA → Compton SG
Hefner R → Geffen E
Hieber CS: Spider cocoons and their suspension systems as barriers to generalist and specialist predators 530
Hill C: Interactions between year classes in the benthic amphipod *Monoporeia affinis:* effects on juvenile survival and growth 157
Hill C, Elmgren R: Predation by the isopod *Saduria entomon* on the amphipods *Monoporeia affinis* and *Pontoporeia femorata:* experiments on prey vulnerability 153
Hof CHJ → Kok CJ
Hölldobler B → Fiedler K
Hollinger DY → Köstner BMM
Holyoak M, Lawton JH: Detection of density dependence from annual censuses of bracken-feeding insects 425
Hopkins MS → Osunkeya OO
Hunt JE → Köstner BMM

Ishigami H → Kawata M
Izhaki I → Ne'eman G

Jacklyn PM: "Magnetic" termite mound surfaces are oriented to suit wind and shade conditions 385
Jackson RB, Caldwell MM: Shading and the capture of localized soil nutrients: nutrient contents, carbohydrates, and root uptake kinetics of a perennial tussock grass 457
Jacquard P → Lüscher A
James RE → Wilson JB
Jaschek G → Kang H
Johansson F: Effects of zooplankton availability and foraging mode on cannibalism in three dragonfly larvae 179
Johnson SD, Bond WJ: Habitat dependent pollination success in a Cape orchid 455
Johnston AM → Maberly SC
Joly CA → Stewart GR
Jordano D, Thomas CD: Specificity of an ant-lycaenid interaction 431
Jordano D, Rodríguez J, Thomas CD, Haeger JF: The distribution and density of a lycaenid butterfly in relation to *Lasius* ants 439

Kang H, Jaschek G, Bawa KS: Variation in seed and seedling traits in *Pithecellobium pedicellare*, a tropical rain forest tree 239
Kaplan RH → Parichy DM
Karlsson PS: Leaf longevity in evergreen shrubs: variation within and among European species 346
Kawata M, Ishigami H: The growth of juvenile snails in water conditioned by snails of a different specis 245
Kelliher FM → Köstner BMM
Kok CJ, Hof CHJ, Lenssen JPM, Velde G van der: The influence of pH on concentrations of protein and phenolics and resource quality of decomposing floating leaf material of *Nymphaea alba* L. (Nymphaeaceae) for the detritivore *Asellus aquaticus* (L.) 229
Köstner BMM, Schulze E-D, Kelliher FM, Hollinger DY, Byers JN, Hunt JE, McSeveny TM, Meserth R, Weir PL: Transpiration and canopy conductance in a pristine broad-leaved forest of *Nothofagus*: an analysis of xylem sap flow and eddy correlation measurements 350
Kreuler R → Pilon-Smits EAH
Kunin WE: Density and reproductive success in wild populations of *Diplotaxis erucoides* (Brassicaceae) 129

Lahav H → Ne'eman G
Lambers H → Griffiths BS
Lawton JH → Holyoak M
Lenssen JPM → Kok CJ
Lesch M → Winter K
Lieffers VJ → Greenway KJ
López-Soria L, Castell C: Comparative genet survival after fire in woody Mediterranean species 493
Loring DH → Prosi F
Lovelock CE, Clough BF: Influence of solar radiation and leaf angle on leaf xanthophyll concentrations in mangroves 518
Lüscher A, Connolly J, Jacquard P: Neighbour specificity between *Lolium perenne* and *Trifolium repens* from a natural pasture 404
Lyons EE, Mully TW: Density effects on flowering phenology and mating potential in *Nicotiana alata* 93

Maas JW → Pilon-Smits EAH
Maberly SC, Raven JA, Johnston AM: Discrimination between ^{12}C and ^{13}C by marine plants 481
Macdonald DW → Geffen E
Macdonald SE → Greenway KJ
Madden D, Young TP: Symbiotic ants as an alternative defense against giraffe herbivory in spinescent *Acacia drepanolobium* 235
Manwaring JH → Van Auken OW
Marinissen JCY, Bosch F van den: Colonization of new habitats by earthworms 371
Mariotti A → Martin A
Martin A, Balesdent J, Mariotti A: Earthworm diet related to soil organic matter dynamics through ^{13}C measurements 23
McCarthy BC, Quinn JA: Fruit maturation patterns of *Carya* spp. (Juglandaceae): an intra-crown analysis of growth and reproduction 30
McLendon T, Redente EF: Effects of nitrogen limitation on species replacement dynamics during early secondary succession on a semiarid sagebrush site 312
McSeveny TM → Köstner BMM
Meesterburrie JAN → Pilon-Smits EAH
Meinzer FC, Rundel PW, Goldstein G, Sharifi MR: Carbon isotope composition in relation to leaf gas exchange and environmental conditions in Hawaiian *Metrosideros polymorpha* populations 305
Meserth R → Köstner BMM
Milton SJ, Dean WRJ: An underground index of rangeland degradation: cicadas in arid southern Africa 288
Müller-Schärer H → Steinger T
Mully TW → Lyons EE
Mundt CC → Finckh MR
Mustart PJ, Cowling RM: Seed size: phylogeny and adaptation in two closely related Proteaceae species-pairs 292
Myers TE → Wilson JB

Naranjo A → Brown RP
Ne'eman G, Lahav H, Izhaki I: Spatial pattern of seedlings 1 year after fire in a Mediterranean pine forest 365
Newman JE → Wilson JB
Nuñez AH → Fernández RJ

Osunkeya OO, Ash JE, Hopkins MS, Graham AW: Factors affecting survival of tree seedlings in North Queensland rainforests 569

Pacala SV → Dobson AP
Pacala SW → Dobson AP
Pagola H → Forbes MRL
Parichy DM, Kaplan RH: Maternal effects on offspring growth and development depend on environmental quality in the frog *Bombina orientalis* 579
Parker EA → Edwards PJ
Pérez-Mellado V → Brown RP
Phillips SL → Schuster WSF
Pilon-Smits EAH, 't Hart H, Maas JW, Meesterburrie JAN, Kreuler R, Brederode J van: The evolution of crassulacean acid metabolism in *Aeonium* inferred from carbon isotope composition and enzyme activities 548
Potter DA: Abundance and mortality of a specialist leafminer in response to experimental shading and fertilization of American holly 14
Prosi F, Loring DH, Back H: Biogeochemical pathways of cadmium through an artificially contaminated intertidal mud flat system – a medium-scale enclosure experiment 396
Pulliam WM: Methane emissions from cypress knees in a southeastern floodplain swamp 126
Pyšek P: Seasonal changes in response of *Senecio ovatus* to grazing by the chrysomelid beetle *Chrysomela* specicsissima 596

Quinn JA → McCarthy BC

Ramesh R → Sukumar R
Raven JA → Maberly SC
Redente EF → McLendon T
Roberts A → Stone L
Rodríguez J → Jordano D
Roughgarden JD → Dobson AP
Rundel PW → Meinzer FC
Rütten D, Santarius KA: Relationship between frost tolerance and sugar concentration of various bryophytes in summer and winter 260

Sallabanks R: Fruit fate, frugivory, and fruit characteristics: a study of the hawthorn, *Crataegus monogyna* (Rosaceae) 296
Sand-Jensen K → Frost-Christensen H
Sandquist DR → Schuster WSF
Santarius KA → Rütten D
Schmitt J → Bowers MD
Schulze E-D → Köstner BMM
Schuster WSF, Sandquist DR, Phillips SL, Ehleringer JR: Comparisons of carbon isotope discrimination in populations of aridland plant species differing in lifespan 332
Senn J → Hanhimäki S
Sharifi MR → Meinzer FC
Silvola J, Ahlholm U: Photosynthesis in willows (*Salix x dasyclados*) grown at different CO_2 concentrations and fertilization levels 208
Smirnoff N → Stewart GR
Soriano A → Fernández RJ
Speakman JR → Brown RP
Spivey HR → Gotelli NJ
Stadler B: Physiological responses of *Uroleucon jaceae* (L.) to seasonal changes in the quality of its host plant *Centaurea jacea* L.: multilevel control of adaptations to the life cycle of the host 273
Steinger T, Müller-Schärer H: Physiological and growth responses of *Centaurea*

maculosa (Asteraceae) to root herbivory under varying levels of interspecific plant competition and soil nitrogen availability 141
Steinman AD: Does an increase in irradiance influence periphyton in a heavily-grazed woodland stream? 163
Stewart GR, Joly CA, Smirnoff N: Partitioning of inorganic nitrogen assimilation between the roots and shoots of cerrado and forest trees of contrasting plant communities of South East Brasil 511
Stock WD → Allsopp N
Stone L, Roberts A: Competitive exclusion, or species aggregation? An aid in deciding 419
Sukumar R, Ramesh R: Stable carbon isotope ratios in Asian elephant collagen: implications for dietary studies 536

't Hart H → Pilon-Smits EAH
Thomas CD → Jordano D
Thomas CD → Jordano D
Thomas JA, Wardlaw JC: The capacity of a *Myrmica* ant nest to support a predacious species of *Maculinea* butterfly 101
Thomas JD → Underwood GJC

Ucko M → Geffen E
Underwood GJC, Thomas JD, Baker JH: An experimental investigation of interactions in snail-macrophyte-epiphyte systems 587

Van Auken OW, Manwaring JH, Caldwell MM: Effectiveness of phosphate acquisition by juvenile cold-desert perennials from different patterns of fertile-soil microsites 1
Velde G van der → Kok CJ

Wagner JD → Wise DH
Wardlaw JC → Thomas JA
Weir PL → Köstner BMM
Welschen R → Griffiths BS
Westoby M → French K
Wikler K → Bertness MD
Wilson JB, James RE, Newman JE, Myers TE: Rock pool algae: species composition determined by chance? 150
Winter K, Lesch M: Diurnal changes in chlorophyll α fluorescence and carotenoid composition in *Opuntia ficus-indica*, a CAM plant, and in three C_3 species in Portugal during summer 505
Winter K, Zotz G, Baur B, Dietz K-J: Light and dark CO_2 fixation in *Clusia uvitana* and the effects of plant water status and CO_2 availability 47
Wise DH, Wagner JD: Evidence of exploitative competition among young stages of the wolf spider *Schizocosa ocreata* 7
Wratten SD → Edwards PJ

Young TP → Madden D

Zamora R → Gómez JM
Zotz G → Winter K
